

NOVOX

Novox NC TRIPOD

Need a place for your microphone on your desk for hands-free voice recording, podcasting, video conferencing or remote learning sessions? Or maybe you want something more discreet than a desk-mount boom arm? Novox TRIPOD has you covered.

Novox TRIPOD is a desktop microphone stand for use with the Novox NC-1 series USB microphones, as well as most standard dynamic microphones.

Small and sleek, but rugged and stable, Novox TRIPOD neatly keeps your mic in place while taking almost no space on your desktop.

The standard size thread is compatible with Novox NC-1 stand mount, as well as most standard microphone holders. It even comes with the most popular type of mic clip for handheld style microphones, as well as a thread diameter adapter.

With folding legs, the Novox TRIPOD is easy to set up, store, and transport. Easily packs into your bag or backpack as part of a lightweight, portable setup.

Bullet points:

- Dedicated table stand for Novox NC-1 series condenser microphones, also compatible with standard type handheld dynamic microphones.
- Easily place your microphone on a desk or table for voice recording, podcasting, video conferencing or remote learning.
- Recommended for musicians, gamers, podcasters, youtubers and vloggers, remote workers, online teachers and students.
- Three folding legs for great stability, easy storage and transport.
- Standard mic clip and a thread adapter included.

Specs:

- Type: tripod
- Colour: black with silver elements
