

NOVOX

Novox NCX USB Condenser Microphone

If you're serious about your work as a Web streamer, YouTuber, podcaster, voiceover artist, gamer, or e-sports player, Novox NCX was designed with you in mind.

The Novox NCX is a professional, large-diaphragm USB condenser microphone that's equally at home in live sound recording, broadcast applications, live streaming, professional podcasting, and virtually any other application. With its ultra-modern, full-featured design and four variable polar patterns, it enables you to create professional, high-quality recordings right out of the box.

If you're recording a podcast or voiceover, Novox NCX delivers clean, crisp voice recordings. If you're a musician, Novox NCX gives you great sounding, full-range instrument and vocal recordings without the need for audio interfaces and complex studio setups. If you're doing live webstreaming or conferencing with colleagues and clients, Novox NCS not only raises your game sonically, but its sleek, modern design looks great on your desk. Its solid aluminum housing includes an integrated stand that's fully adjustable to any angle, or attach it to any mic or boom stand via the standard mounting socket.

Novox NCX puts everything you need at your fingertips. The microphone's pickup pattern and sensitivity can be easily adjusted with the conveniently located pattern selector and level control. The front-panel headphone output enables you to monitor your recordings in real time, along with volume and mute controls.

With its three capsule design, you can switch between four available polar patterns:

Cardioid: the microphone records sounds coming from the front, isolating unwanted sounds from the back and sides.

Figure-8: the microphone records sounds coming from the front and the back, while isolating the sides.

Omnidirectional: the microphone records sounds coming from all directions with equal sensitivity.

Stereo: the microphone records sounds with the left and right channel of a stereo field.

Novox NCX is designed to be fully plug-and-play, compatible with Windows, MacOS, and game consoles equipped with USB input – no need for expensive and complicated audio interfaces – making Novox NCX a fully self-contained recording solution.

Bullet points:

- High-quality, professional USB microphone with crystal clear sound for streaming, podcasting, gaming, e-sports, video and music recording, remote conferencing, and any application requiring excellent sound, seamless installation, and easy operation

NOVOX

- Modern, elegant and sturdy design with integrated desk stand, headphone output, sensitivity and volume controls, mute button and status LED

Specs:

- Condenser microphone
- 3 x built in capsules
- 4 different polar patterns (stereo, omnidirectional, cardioid, Figure-8)
- Frequency response: 20 Hz – 20 kHz
- Power supply: 5V/500mA (USB)
- USB 2.0 connection
- Sample rate: 44.1-192 kHz
- Bit rate :16/24 bit
- Sensitivity: 5.6mV (1 V/ Pa – 1 kHz)
- Max SPL 120 dB (THD:0.5% 1 kHz)
- Output Impedance 32 Ohm
- Mute button
- Phones out
- Microphone dimensions: 180 mm x 59 mm x 59 mm (7 in x 2.3 in x 2.3 in)
- Box dimensions: 267 mm x 253 mm x 187 mm (10.5 in x 10 in x 7.3 in)
- Weight : 0.7 kg (1.5 lbs)

What's in the box:

- Microphone
- USB Cable
- Stand Mount
